Kizen Engineering 495/5/1/A, opp lane of Vasu research, GIDC, Makarpura, Vadodara - 390010

Our Unwinders and Rewinders guarantee the perfect stability on which the quality of the end product is based. Our winding and unwinding systems fit in any coating line, shaftless or with winding shafts, tension control in automatic mode throughout the diameter and operate with the same high precision from 0.1 m/min to 500 m/min. The winders can be used for a wide range:

- Single winder
- Shafted or shaftless
- Roll diameters up to 1200 mm
- Roll weights up to 1000 kg
- Perfect winding accuracy
- Optimum energy efficiency
- Motorised or Break / Clutch (Optional)
